

THE 6TH IASPEI / IAEE INTERNATIONAL SYMPOSIUM:
THE EFFECTS OF SURFACE GEOLOGY ON SEISMIC MOTION
AUGUST, 2021 KYOTO, JAPAN

July 2021

Information of online company/institute exhibition at ESG6 (Technology, Instruments, Software etc.)

We are very pleased to announce that the 6th International Symposium on the Effects of Surface Geology on Seismic Motion (ESG6), which is supported by both IASPEI and IAEE, will be held in August 2021 in Kyoto, Japan.

This symposium has been held in the past in Odawara(Japan), Yokohama(Japan), Grenoble(France), Santa Barbara(U.S.A) and Taipei(Taiwan), with about 250 to 400 participants for each symposium (including about 100 international participants).

The symposium (ESG6) details are described below and we are simultaneously recruiting company/institute exhibitions. We hope that your company/institute will take this opportunity for introducing and advertising your company/institute and products (Technology, Instruments, Software, etc.) to Japan and international participants and customers.

Due to COVID-19, the exhibitions will be held online. The ESG6 website will be opened to conference participants from one week prior to the conference until three months after the conference.

1. Date/Time

30 August - 1 September 2021

(The archive site will be open to registered participants for three months after the exhibition.)

2. Venue

Uji Obaku Plaza, Kyoto University, Japan + Online (August 30)

<http://www.uji.kyoto-u.ac.jp/campus/obaku.html>
