

THE 6TH IASPEI / IAEE INTERNATIONAL SYMPOSIUM:
THE EFFECTS OF SURFACE GEOLOGY ON SEISMIC MOTION
AUGUST, 2021 KYOTO, JAPAN

July 2021

Information of sponsored sessions at ESG6

We are very pleased to announce that the 6th International Symposium on the Effects of Surface Geology on Seismic Motion (ESG6), supported by both IASPEI and IAEE, will be held in August 2021 in Kyoto, Japan.

This symposium has been held in the past in Odawara(Japan), Yokohama(Japan), Grenoble(France), Santa Barbara(U.S.A), and Taipei(Taiwan), with about 250 to 400 participants for each symposium (including about 100 international participants).

The symposium (ESG6) details are described below and we are simultaneously recruiting company/institute exhibitions. We hope that your company/institute will take this opportunity to introduce and advertise your company/institute to Japan and international participants and customers.

Due to COVID-19, the sponsored sessions and exhibitions will be held online. The ESG6 website will be opened to conference participants from one week prior to the conference until three months after the conference.

1. Date/Time

30 August - 1 September 2021

(The archive site will be open to registered participants for three months after the exhibition.)

2. Venue

Uji Obaku Plaza, Kyoto University, Japan + Online (August 30)

<http://www.uji.kyoto-u.ac.jp/campus/obaku.html>

Online (August 31 - September 1)

3. Sponsored session and online exhibition fee

JPY 200,000/session (60 - 90 min.) including Tax

Contents:

1) Sponsorship of invited lecture sessions

- Company commentary for 2-3 minutes at the beginning of the session
(To be arranged upon request)
- Display of the sponsor's logo during breaks
- Display of the sponsor's logo on the session program website
- The session program will be organized according to the following topics.

Please specify your preferred session (First-come-first-served basis)

- a) Recent Damaging Earthquakes
 - b) Geophysical Exploration
 - c) Numerical Simulation
 - d) Ground Motion Simulation/ Near-Field Strong Motion
 - e) Strong Motion Observation/ Spatial Variation/ Uncertainty
 - f) Borehole Array Observation/ Nonlinear Analysis
 - g) Seismic Hazard/ GMPE
 - h) New Horizon Issues on ESG/SMP
 - i) Achievements from Two Decades of Observation by K-NET/KiK-net
(Sponsored by NIED)
 - j) Blind Prediction Related to the 2016 Kumamoto Earthquake
- #### 2) Online exhibition
- #### 3) Conference ID pass for two persons
